I've been feeling great
Been working like real real late
Baby took me to a fancy place
And he paying for dinner because I like it that way
One step to the new loot
Big bag, take it two steps to the full moon
Got a couple people wishing bad on me
What's new
I'm a hit a milly then forget about those dudes
We looking fine on the paper like we divine and a savior
It's time you meet with the maker
Sippin that whiskey and flavor
Don't ever fuck with the talent cause I got one in the chamber
All of my exes would tell you they never ever could tame her
Livin like, these vibes, ten times, do a whole show
Rewind, these lines, do it real slow
I could take you to the best
Hit it front row
Shootin the free throws
We at numero cinco
