

The way the sky lights up
I feel the night has no end
The lonely faces I meet
Can break us until we bend

If It's so complicated
Lets make it simple then
Friends and tongues stay tied
I wanna know what it's like
To feel a love so right
To feel a love so right
They won't take my crown
I'm coming up right now

Baby I don't have the money
But this time I can afford it honey
Long as we stay in this room
Got a bunch of people drinking to the music that is playing
We're the only one's who keep in tune
Now we
Mixed up in all these emotions
You tell me that I'm brave
Listen to me
I won't lose a beat
Gotta brush off the year I've had

If It's so complicated
Let's make it simple then
Friends and tongues stay tied
I want to know what it's like
To feel a love so right
To feel a love so right
The love tonight
The love's so right
I wanna know
It's gotta be you
I wanna know
It's gotta be you
I wanna know
It's gotta be you
I wanna know
Wanna know
